

LED Spot Light

DL-15AA

> Introduction

For general lighting and accent lighting, the DL-15AA will eventually become the chief substitutes for traditional lamps. It adopts aluminum-extruded structure. With the compact and beautiful appearance, the spot light has great heat-sinking properties. It is also mothproof rated. In addition, it can be substituted for those lamps with E14 fixtures. When the spot light is operating, the soft lighting diffuses symmetrically, showing a professional optical design. The DL-15AA is specially used to illuminate foods, organic materials or painting.

> Application Environment

The DL-15AA can provide bright and symmetrical lighting without strobe. It can be used in places, such as markets, hotels/motels, or exhibition places.

> Technical Parameters

Part NO.	Size (mm)	Weight(g)	Color
DL-15AA	75xΦ48	78	Blue/Glod/Silver

Parameter	Min.	Standard	Max.	Remark
Operating Voltage(V AC)	100	110/220	250	/
Operating Frequency(Hz)	/	50/60	/	/
Power(W)	/	3.6	/	/
CCT (K)	/	6,500	/	Day Light
	/	5,700	/	
	/	3,000	/	Warm White
	/	2,700	/	
Luminous Flux (lm)	/	180	/	Day Light
	/	160	/	Warm White
Operating Temperature(°C)	5	25	40	/
Operating Humidity	10%	60%	90%	/
Storage Temperature(°C)	-40	25	80	/
Emitting Angle	30°			
Body Material	AL+PC			
Packaging	20PCS /Carton(K5K5K)			
Package Size (mm)	282×230×117 (20PCS)			
Design Life(Hr)	40,000			

CAP:E14
